TFCF INTERNATIONAL PROGRAMS

TFCF Medical Program

Medical advances play a paramount role in improving human well-beings, increasing longevity and alleviating suffering. Accessing to medical services is essential, as it helps people address medical concerns, receive preventative care, proper treatment and rehabilitation.

However, medical resources are often distributed unequally, especially in rural areas where many resources are scarce, and people encounter barriers to accessing medical care.

TFCF Medical Program started in 2010, when TFCF Mongolia cooperated with Mongolia's Center for Maternal and Child Health to form a medical team. Each year, the team would visit

different regions of Mongolia to provide medical services to local people.

This year, a team of 4 TFCF staff and 8 medical professionals visited Govi-Altai Province. In collaboration with local hospital, the team provided medical care to children in the community. 39 children benefited, from which, 15 children received craniofacial related treatment or surgery. Additionally, a training was held for local medical professionals on "How to make craniofacial treatment more accessible".

World Refugee Day

Eid al-Adha is one of the most important holidays celebrated in Islam. On World Refugee Day (June 20th), TFCF Jordan handed out food packages in a refugee camp in Mafraq, so that refugee families could enjoy the holidays joyfully. In total, 27 families received food packages that consisted of rice, chickpeas, sugar, wheat flour, cooking oil, etc.

TFCF Programs in summer!

For many students, summer is a canvas waiting to be painted with unforgettable, wonderful memories. TFCF implements summer camp programs, gifted education programs, drowning prevention activities, early childhood education programs, etc. so that children can learn, have fun, enrich personal experiences and boost confidence!
